<https://github.com/abbyshabi> | <https://oluwadamilolashabi.com/>

An exceptional and imaginative software developer driven by a strong desire to learn and adapt rapidly, characterized by an outstanding work ethic. Proficient in various programming languages and well-versed in fundamental principles of web development and design. Enthusiastic about bridging technology and business management to make a positive impact on organizations. Committed to developing applications that are not only robust and technically advanced but also highly engaging for the intended users.

HIGHLIGHTED SOFTWARE APPLICATION

INDICINA, DECIDE-JAVASCRIPT-PACKAGE

JULY 2023

URL: <https://www.npmjs.com/package/@indicina-dev/decide-library>

As the Lead Developer for the Decide SDK, a Node.js-based project, I spearheaded the development of a powerful software tool. The SDK empowers users to make risk-free decisions by analyzing their banking transactions and extracting crucial financial data. My key contributions include:

- Led the inception and development of the Node.js SDK
- Enabling seamless integration with various projects.
- Implementing efficient API integration for fetching and processing banking data.
- Designing interactive data visualizations for user-friendly insights.
- Optimizing performance for fast data processing and minimal resource usage.
- Conducting rigorous testing and creating detailed documentation.
- Collaborating with cross-functional teams for successful project delivery.
- Maintaining and updating the SDK with new features and enhancements.

As the lead developer, my contributions to the Decide SDK revolutionized data-driven decision-making, significantly impacting the project's success.

FUNDIS , FRONT-END LEAD

MARCH 2022

URL: <https://www.portal.fundis.co.ke/>

As Front-End Lead for the Fundis portal, I led the development of a user-friendly website interface, optimizing UX and performance. My key achievements include:

- Developed responsive front-end using HTML, CSS, and JavaScript.
- Enhanced user engagement through intuitive design and interactive elements.
- Ensured cross-browser compatibility for a seamless experience.
- Implemented performance optimization, reducing loading times.
- Established coding standards and conducted code reviews.
- Resolved complex issues promptly to meet project milestones.
- Collaborated with project managers and clients, ensuring satisfaction.

By leveraging innovative solutions and effective teamwork, I contributed to a successful and impactful portal.

TECHNICAL SKILLS

- **Strong:** JavaScript, HTML, CSS, jQuery, React JS, Golang, GraphQL, Handlebars, Python, Storybook JS, AWS, Git, Node.js, SCSS, Flask, ChatGPT, Material UI
- **Experienced:** Angular, Django, PostgreSQL, Kubernetes, Raspberry Pi

PERSONAL SKILLS

Adaptability, Problem-Solving, Frontend Development, Award Recognition, User-Centric Approach, Great Interpersonal Skills, Multitasking, Fast Learner, Quick Learner, Critical thinker, Strong Communication Skills

EXPERIENCE

FUNDIS (NAIROBI, KENYA)

APR 2022 – SEP 2022 (SHORT TERM PROJECT) | LEAD FRONTEND ENGINEER

- Led and directed the frontend development efforts for a short-term project, taking charge of creating robust and user-friendly interfaces.
- Leveraged expertise in JavaScript, HTML, CSS, React JS, and other frontend technologies to spearhead the successful implementation of frontend components using Material UI.
- Collaborated effectively with the development team, ensuring efficient execution and timely delivery of the project.
- Resulted in the successful completion of the project with high-quality frontend components, enhancing the overall user experience.

INDICINA TECHNOLOGIES (LAGOS, NIGERIA)

Jan 2023 – Aug 2023 | ACTING TEAM LEAD (Engineering)

- Provided valuable technical support and guidance to various teams as the Acting Team Lead for the Engineering team at Indicina Technologies.
- Assisted teams with complex technical challenges, even outside of frontend development, fostering effective collaboration and problem-solving.
- Actively participated in software testing for the QA team, ensuring the delivery of high-quality and high-performance applications.
- Played a pivotal role in enhancing team productivity and project success through effective leadership and support.

Oct 2021 – Dec 2022 | FULL STACK ENGINEER

- Contributed to the development of cutting-edge end-to-end solutions using a diverse technology stack, including Golang, GraphQL, Python (Flask and Django), React JS, and more, as a Full-Stack Engineer.
- Led the transition from Python Flask to Golang for our backend service, showcasing problem-solving skills and adaptability.
- Significantly improved computational efficiency by implementing the transition based on a compelling Proof of Concept (POC).
- Played a key role in enhancing the performance and overall efficiency of our applications through the successful transition.

Jul 2019 – Dec 2022 | FRONTEND ENGINEER

- Focused on creating robust and visually appealing user interfaces using React JS, HTML, and CSS during my tenure as a Frontend Engineer.
- Earned recognition as a promising front-end developer in Tech Trend Africa's "The connected Awards" in 2021 due to dedication to user-centric development.
- Constantly prioritized enhancing user experiences and driving innovation, contributing to the project's success and positive impact.

Throughout these roles, I demonstrated my technical expertise, adaptability, and commitment to delivering high-quality software solutions. I thrived on continuous learning and embraced challenges with a positive and collaborative mindset, supporting other teams while acting as the Team Lead and contributing to the successful completion of projects across the organization.

MENTORSHIP

STUTERN ACCELERATOR

SOFTWARE ENGINEER MENTOR | OCT 2022 – JULY 2023

- Dedicated Software Mentor empowering aspiring developers through personalized coaching and constructive feedback.
- Fostering growth mindsets to embrace challenges and thrive in modern development environments.
- Building a supportive and collaborative learning environment for exploring new ideas and projects.
- Inspiring mentees' progress and accomplishments for a lasting positive impact on their journeys.

EDUCATION

MBA, ACCRA BUSINESS SCHOOL, ACCRA, GHANA

August 2020 – December 2021

Relevant Courses:

- Human Resource Management
- Project Management
- Corporate Governance
- Strategic Marketing Management

Software Development Full Stack , MORINGA SCHOOL, NAIROBI, KENYA

November 2018 - April 2019

BSc. INFORMATION TECHNOLOGY, GHANA TECHNOLOGY UNIVERSITY COLLEGE, ACCRA, GHANA

August 2011 - July 2015

Relevant Courses:

- Accounting and Economics
- Artificial Intelligence
- Social Sciences
- Cybersecurity

VOLUNTEER

Representative, Child Rights' Club (UNICEF)

May 2008 - May 2010

AFFILIATIONS AND LEADERSHIP

Treasurer, International Students' Association (GTUC)

May 2014 - May 2015

HONOURS AND AWARDS

Tech Trend Africa's "The Connected Awards" - Promising Front-end Developer, 2nd Runner-up (2021)
